

Have you considered a career as an academic?

Here's your chance

The Department of Higher Education and Training is pleased to announce the implementation of Phase 9 of the 'New Generation of Academics' Programme (nGAP)

Revitalising & Transforming the Academic Profession

The nGAP aims to assist with staffing transformation and capacity needs at universities, and involves the establishment of permanent academic posts.

Are you interested in becoming an academic and want to participate in a prestigious development programme that:

- enables you to immediately take up a permanent lecturer position and earn a full lecturer salary as you study?
- enables you to study for a doctorate or to undertake post-doctoral work while substantially reducing teaching responsibilities while studying?
- enables you to develop your teaching and research ability?
- ensures that you are fully supported by a mentor for the duration of your participation in the development programme?
- provides support for an international mobility experience?

Then the nGAP is for you and you should seriously consider making an application for one or more of the posts listed below.

To be eligible for selection for a nGAP post, applicants must meet the following criteria, in addition to meeting criteria specified by the university:

- be 40 years or younger
- show evidence of eligibility to undertake postgraduate study at a doctoral or postdoctoral level.

Note:

- At least 80% of the posts will be allocated to black and/or female South African citizens.
- You may apply for more than one post at more than one university.
- Full details of the posts at each university are available on the university's website.
- To apply, visit the website of the university and follow the instructions provided in the advert.

Successful candidates will participate in a 6-year comprehensive development and induction programme, after which they will continue as regular members of the academic staff.

VAAL UNIVERSITY OF TECHNOLOGY
Inspiring thought. Shaping talent
